

Calling all Hostos students who are single parents with children 0–14 years old

Family Planning

THE MISSION of the Family Empowerment Program (FEP) is to provide services to students who are single parents, enrolled full time, and are pregnant or have children between the ages of 0–14 years old. Our program helps students in their pursuit to complete their Associate Degree, maintain healthy lifestyles, and be self-sufficient, nurturing parents.

- The program aids parenting students by connecting them to resources within Hostos and in the community. Each student is provided with individualized case management and social work services, advocacy, educational workshops, parents meet-up groups, emotional support and much more.

VISION STATEMENT: To provide access to education for all parents who want to create better futures for their families. Education is the key to elevating families out of poverty, and with adequate social services and academic supports, we envision that all parents pursuing their education can be successful.

• Eligibility for FEP •

- Must be a full time student
- Your child must be in school or daycare, or be eligible for school or daycare
- Must be in good academic standing
- Must participate in workshops each semester that is geared to empower you or your children

If you are interested, please email me, so we can discuss your eligibility:
